2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners.

The students admitted to our college are coming from various economic sections and communities of the society. Most of the students are from backward categories i.e. ST, SC, and OBC. The college is very much aware of their overall growth and social upliftment in society. Our college has a fair system for the admission process. The students are admitted to our institution without considering caste, creed, and gender, and religion, social and economic status. After the completion of the admission process, regular classes commence as per the college timetable. The institution always sends students for enrolment in college in order to equip them with higher education so that they can become empowered themselves to face the future competition and to create their own entity. Actually, the college does not have a process on paper to identify slow and advanced learners among students.

Advanced learners and slow learners are identified as per their responses in the classroom as well as their performance in the classes, internal examinations. After knowing slow and advanced learners, the teachers prepare extra lectures for weaker students. The teachers observe whether the students easily understand the lesson. If they fail to understand the topic or teaching of a teacher, the same could be explained again in an easy way. This is the informal way to complete the teaching-learning process and it is also convenient for both teacher and students. Students are encouraged to

refer to advanced textbooks, journals, and for their advanced studies. Home assignments are prepared by the Students. They are also encouraged to apply for different competitive examinations. They are motivated to participate in seminar presentations, Poster presentations, quiz competitions, debates, Avishkar, etc. Following activities are done by teachers for students: 1. Individual counseling. 2. Group discussion session. 3. Internal examination process. 4. Encouragement in NSS, Sports, and academic activities. 5. Industrial Tour 6. Group discussion sessions 7. Avishkar Research Festival Participation. 8. To enhance their confidence level, the college conducts various activities such as Cultural, NSS, and Sports to develop their overall personality. Due to Covid Pandemic, the activities did not proceed.
