2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode.

Being affiliated to Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon, the college follows the evaluation structure as recommended by the university and hence has limited scope for modifying the evaluation system. At present, the semester system for all levels and all faculties has been implemented by the university. The total weightage for external evaluation is 60 and for internal evaluation is 40. The modalities followed for awarding internal marks at undergraduate and postgraduate levels are as follows: Undergraduate level: Test-1 (10 marks) and Test-2 (10 marks) Home Assignments/Group Discussions/Seminars (10 marks) Class Attendance and Behavior (10 marks) Total 40 marks. Postgraduate level: Test-1(20 marks) and Test-2 (20 marks) Total: 40 marks Keeping in view the need for continuous assessment of the students, the college initiated the following measures: 1. A centralized Internal Examination System is followed for smooth working and transparency. 2. Time table of the internal examination is in tune with the academic calendar of the college and the university. 3. Each year, the college constitutes an examination committee to ensure effective implementation of all activities related to internal and external examinations and assessments. 4. Through continuous monitoring and evaluation of students on campus, the college identifies students requiring special attention and offers necessary remedial measures. 5. Term-wise assessment is carried out as part of the evaluation process during the academic year. The intellectual and skill-based development of the student is evaluated and monitored on a continuous basis. At the end of each term, the assessment is done through term-end examinations and finally through

university examinations. 6. The question papers for internal test examinations are prepared to give appropriate weightage units/modules of course as per syllabus 7. Home assignments; seminars, general behavior, and attendance are taken into consideration while awarding internal scores to the students. For the students of science faculty, Journal keeping of the practical sessions is also considered for continuous assessment. 8. The results of the internal examinations are declared within a week, enabling the students to raise a grievance and get it resolved before the marks are finally submitted to the university. Grievances in assessment, if any, are resolved through teacher interaction.
