## Action Taken Report on Parents Feedback Academic Year -2017-18

If we study from the point of view of college development, we see the feedback of parents as a very important part. Because some of the problems are not directly noticeable but indirectly if the feedback of the parents is taken in consideration of the interests of the students, they are easily noticed. College teachers are in direct contact with the parents of the students of that academic year and at the end of the year feedback form are taken from the parents. We have tried to collect 100% true information through the prepared questionnaire because all the parents are inquired by phone whether the forms prepared for them have reached through the students and if there are uneducated parents also convince them of its importance. In the feedback received from parents during the academic year 2017-18, we have noticed the following need for improvement.

Sakri, Dist.Dhule PIN-424304

1) In their feedback, the parents did not give a satisfactory feedback on whether the teachers raised issues related to gender, religion, caste, etc., or whether the teachers were focusing on the best way to reconcile the students of different castes and religions. Therefore, by paying attention to this matter, teachers will be given instructions about maintaining intimate relationships with students.

2) We will try to implement the policy of the college in the best way by paying attention to the fact that the feedback of the parents regarding the policy of the college is not satisfactory in the best process.

3) The transparency policy of the college also needs to be improved to some extent, we will definitely try to implement it by taking appropriate action
