Action Taken Report on Students Feedback Academic Year -2017-18

The students of the college, keeping the goal of college development in mind, gave a questionnaire of questions to the students, keeping in mind the purpose of 30 different types and various elements. After analyzing those different points and after the report of the analysis comes to me as the principal, I have to implement a special strategy for the purpose of improving it in the next academic year, keeping in mind the weakness I feel in it, so that there will be a special effort to improve the elements that have not received very good feedback from the students this year.

- 1) The question of cleanliness of classrooms in the college has not received very good feedback.
- 2) The water facility for students in the college is not well received.
- 3) Canteen facility in the college is also not well received.

4) It is noticed that the proportion of students who are dissatisfied with the toilet facilities in the college is high.

In the academic year 2017-18 in the student feedback, the above question has not received very good feedback. Soon the feedback of these students will be improved regarding the necessary things and the principal will try to provide very good facilities soon.
