Action Taken Report on Students Feedback

Academic Year 2021-22

The students of the college, keeping the goal of college development in mind, gave a questionnaire of questions to the students, keeping in mind the purpose of 30 different types and various elements. After analyzing those different points and after the report of the analysis comes to me as the principal, I have to implement a special strategy for the purpose of improving it in the next academic year, keeping in mind the weakness I feel in it, so that there will be a special effort to improve the elements that have not received very good feedback from the students this year.

- 1) Facilities for student study in library do not show very good feedback from students.
- 2) Feedback to the students is that the help they need from the teacher is not very good.
- 3) The subject of library facilities also does not show very good feedback

Sakri, Dist.Dhule PIN-424304

4) It is noticed that the water facility in the college was not given very good feedback

At the same time, the students did not get very good feedback about various issues such as classroom cleanliness, computer availability, internet facility, sports facility, NSS facility, cultural program facility, parking canteen, toilet facility etc. In the academic year 2020-21, since Corona is a disaster, restrictions on many things were imposed by the government, so all the elements were taking decisions following their orders, so the impact of it can be seen this year, so the feedback of the students is not very good on many questions. However, as a Principal, I will try my best to study the above various issues and improve them and I guarantee that students will get all kinds of good facilities soon.
