

Field-Work / Project Report (A.Y. 2017-18)

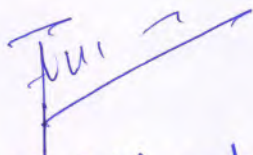

Title of Field Work / Project	“Socio-Economic Survey of Malpur”
Place of Work	Malpur Village Tal-Sakri, Dist.-Dhule (MS)
Number of Student Participated	230 (FYBA-85, FYBSC-113, SYBA-09, TYBA-23)

In the year 2017-18, village survey of the village of Malpur was given as the subject area study for the subject of environmental science study which is compulsory in the first-year arts and science and for the second year and third year geography students.

In fact, the village report was given with the noble intention that the students should use the research strategy to prepare the project report. 230 students participated in this project on Dt.17.02.2018

If there is team work together, research can be done by forming groups at different stages. Malpur village is at a distance of seven kilometers from Sakri Taluka. This village with a population of 2500 to 3000 is situated on the banks of a river. After a complete study of this village, it is noticed that this village is developed. Some leaders of this village are playing their role in district level politics. The influence of this village can be seen in the taluk at all levels, economic, social, political, religious etc. The three thousand years old farming method of people cooperation and participation in this village is internationally famous. It was seen that innovative experiments are being done in the field of agriculture in this village. Overall, during the comprehensive study of this village, by creating different groups of students, students had

different types of questions, some students collected information from their observations. Some students collected information through questionnaires. Some students made field visits. Some students visited various offices in the taluka to collect information at different stages and guided all the students to sit together and prepare the report. This project was prepared after detailed study of social, economic, environmental, political, cultural and natural factors. All in all, everyone was very happy with the preparation of this report and the preparation of the field report in a research manner.
